

## BSLZ Zirconium Silicate Beads

- **BSLZ Series**
  - High quality solid spheres
  - Made from pure zircon ( $ZrSiO_4$ )
  - Produced using state of the art fusing technology.
  - High density combined with Ceroglass's manufacturing
  - Process and purity of chemical composition yields greater wear resistance, resulting in improved cost and lower contamination rates.
  - The extremely accurate sieve fractions and the wide ranges of sizes ensure an economical application.

### Advantages

- Field of application – Cleaning, surface finishing, wet blasting, shot peening.
- Cleaning of sensitive surfaces. Shot peening of all metal surfaces.

### SIZE CHART

BSLZ-0	0-0.063 MM	Zirconium Silicate Beads
BSLZ-1	0.07-0.125 MM	Zirconium Silicate Beads
BSLZ-2	0.125-0.250 MM	Zirconium Silicate Beads
BSLZ-3	0.250-0.425 MM	Zirconium Silicate Beads
BSLZ-4	0.425-0.6 MM	Zirconium Silicate Beads
